# Klehm's Nurseries

Arlington Heights,  
Cook County, Illinois

Established 1856.

Phone, Arlington Heights, 222

Season of 1910

**O**UR NURSERIES are extensive, covering nearly 200 acres, which are planted to trees and shrubs and vines. They are easy of access, as Arlington Heights is twenty-two miles from Chicago, on the Chicago & Northwestern Railway, and within five minutes' walk from the depot to the Nurseries.

**QUALITY**—Our Nursery Stock is grown in open, unsheltered prairie soil and in the very most exposed situation, which insures their hardiness, and on soils admirably adapted for forming an abundance of fibre roots and robust plants. Special attention is called to the fact that our stock is grown a good distance apart in the rows, insuring heavier trees and shrubs than are generally offered.

**QUANTITY**—Lots of 5 and 50 will be furnished at the 10 and 100 rate respectively.

**BY FREIGHT OR EXPRESS**—All goods ordered from this list must be sent by express or freight. Customers paying charges on receipt of goods. All heavy trees in large amounts should be sent by freight, as charges are much less and our perfect packing admits a long journey without injury to the trees. Our responsibility ends on delivery of the trees in good condition to the Transportation Company.

**SHIPPING SEASON**—Our shipping season opens about March 15th and continues until about the 15th of May, and in fall from about Oct. 10th until the freezing of the ground.

**STOCK TRUE TO NAME**—The greatest possible care is exercised by us to keep our varieties true to name. We hold ourselves in readiness to replace on proper proof all stock that may prove otherwise, but, it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price of the goods.

**ORDERS**—Write plainly and give explicit directions as to address and mode of shipment, otherwise we will forward according to our best judgment.

**FILLING ORDERS**—In filling orders from this list we reserve the right, in case that we are out of a variety, to substitute another of equal merit when it can be done (always labeling with correct name) unless the party ordering says, "No substituting," in which case we will fill the order so far as we can and return the balance.

**CLAIMS**—To receive consideration claims must be made within five days after receipt of the goods. Claims for damage in transit must be made to the Company delivering the goods, and should be presented promptly.

**INSECT AND FUNGUS PESTS**—A certificate of inspection will be sent with each shipment, as our Nurseries have been thoroughly inspected and found free of San Jose Scale and other injurious insects and diseases.

**TERMS**—Cash with order except to such persons as satisfy us as to their responsibility. Address all orders to

## **GUARANTY AND CONDITIONS OF SALES.**

While we take all possible care to supply Good Healthy, Thrifty Stock, true to name, and hold ourselves in readiness to replace, on proper proof, all stock that may prove untrue to name, or refund the amount paid, we do not give any other warranty, expressed or implied, with respect to the goods we send out and will in no way be responsible for other defects or loss of stock. When it is considered how many are the contingencies on which the success of the planting the stock depends, such as planting too deep, or too shallow leaving the stock exposed too long before planting, improper care after planting, etc. our customers will readily see that it would be sheer folly for any nurseryman to guarantee the stock.

Respectfully Yours,

**KLEHM'S NURSERIES,**
